

**It's a FACT...**

**There is no LAW in Wisconsin to regulate puppy mills.**

Without any laws in place to regulate puppy mills, these horrific torture chambers are allowed to flourish and the unthinkable suffering is allowed to continue.

These unscrupulous and greedy 'mill breeders' are specifically targeting Wisconsin to set up 'business' because they know that we don't have the laws necessary to enforce even minimum standards. 'No standards' means more profit and less hassle for them. We need a massive effort on the part of ALL humane-minded people to STOP the abuse of the "pets for profit" milling industry! Wisconsin is quickly becoming one of the worst states for puppy mills in the entire country!

As you may already know, recent stories on puppy mills covered by WTMJ and their I-team investigator, John Mercure, have ignited a public outcry for action. Here is a link to recent media coverage:

Current developments indicate that some of our law makers are starting to listen. Some legislators have been responding by attending local Town Hall meetings and acknowledging that 'something needs to be done'. BUT we can't let up now! We still need to contact our state representatives and flood them with phone calls and letters! Be determined and specific by telling your legislators that you want a strong and concise "Pet Facilities Law" to be introduced and passed in this session. Let them know that any 'weaker' form of legislation that only looks to mass or volume breeders is not enough! Be explicit about asking for their support on this very important matter.

***PLEASE ACT NOW!***

In Wisconsin, you can find your representatives' contact information on the web at **[www.legis.state.wi.us](http://www.legis.state.wi.us)**. Click on 'Who Represents Me' in the middle of the page. Or, call toll free 1-800-362-WISC.
